## 3D Systems Adds Advanced Design Concepts to Its Network

- Full Service Engineering Design Firm Brings Complete Portfolio Of 3D Printers To Its Users -

**ROCK HILL, South Carolina, February 9, 2012** – 3D Systems Corporation (NYSE:DDD) announced today the appointment of Advanced Design Concepts, ADC, a leader in full service engineering design services, as an authorized reseller. With a qualified team of experienced sales professionals and support engineers, ADC offers its users immediate access to [3D Systems'](#) entire lineup of high resolution, high speed, full color personal and professional [3D printers](#).

"We are delighted to add an experienced and proven services and sales channel partner of the caliber of ADC to our growing network of 3D content-to-print solutions resellers," said Michele Marchesan, Vice President of Sales, Personal and Professional Printers, for 3D Systems. "The ADC team is uniquely qualified and well positioned to deliver our 3D printers products to their growing customer base."

"We are very pleased to represent 3D Systems' comprehensive design-to-manufacturing solutions," stated Jim Marschalek, Vice President of ADC. "Their 3D content-to-print products and services, coupled with our innovative design solutions will provide our customers with a broad-range of rapid prototyping and manufacturing capabilities."

## **About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.
