3D Systems and Dassault Systèmes Ink Agreement

- Industry Leaders Come Together To Extend The Boundaries Of 3D
Content Creation, Capture And Print -

ROCK HILL, South Carolina, August 16, 2010 – 3D Systems (NASDAQ: TDSC), today announced that it has signed an agreement with Dassault Systèmes to become a Technology Partner in its Immersive Virtuality Network. Under this agreement both companies will jointly support and promote complementary 3D content creation, capture and print products, services and solutions.

As the world leader in 3D and Product Lifecycle Management (PLM) Dassault Systèmes continues to innovate, shape and lead the use of 3D media to maximize the effectiveness of product design and development. [3D Systems](#), the recognized Additive Manufacturing pioneer and leader, is revolutionizing the product development process by offering the broadest portfolio of [3D Printers](#), [3D Manufacturing Centers](#) and [3Dparts™ solutions](#) available today.

“This global relationship with Dassault Systèmes leverages both organizations’ core strengths, building on our joint vision to democratize access and accelerate adoption of 3D content creation, capture and print solutions,” said Abe Reichental, president and chief executive officer, 3D Systems.

Under the terms of the agreement both companies have access to each other’s systems and technologies for the purpose of market development and expansion.

Forward-Looking Statements

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or that include terms such as "believes," "belief," "expects," "estimates," "intends," "anticipates" or "plans" to be uncertain and forward-looking. Forward-looking statements may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-Looking Statements," "Cautionary Statements and Risk Factors," and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements.

About 3D Systems Corporation

3D Systems is a leading provider of 3D Printers, 3D Manufacturing Centers and 3Dproparts™ solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: Our customers Create With Confidence.
